STAFF REPORTS AND ANNOUNCEMENTS

- Randy Harris, Public Works Director

Randy Harris reported that we had a main line plugged on Summit Street and Lincoln Street with roots the size of a basketball and has now been fixed. He has been in multiple conversations with the state regarding our permit and sampling schedule. We are now required to sample a ditch, that has no flow, monthly instead of quarterly. It never makes it to the river but they are requiring it because we discharge into it. Amanda Pierce will write the necessary letters for follow up and find some funding suggestions for collection systems. Randy states we have never been out of compliance, not even when we flooded. He is working on December samples but when he received the notification he thought it was for the first of the year but it was effective immediately. Brad Campbell feels that if they offer help in obtaining a better collection system that we should consider it.

- Amanda Pierce, Administrator

Amanda Pierce reported that we should have our Norwood Sanitation District emails now. We have not heard back on the rate study yet. The auditors now have everything they need.

The staff thanked the NSD Board for their bonuses.

ADJOURN

Kerry Welch made a **motion** to adjourn the meeting at 7:28pm. Tom Kyle seconded the **motion**. **All** voted **yes**. **Motion carried**.
